SKILLS

- Leadership
- Grant and report writing
- Project management
- Co-creation and sustainable community engagement
- Creativity and ideation
- International collaboration
- Geospatial mapping in QGIS
- Data analysis in R and Python
- Database management in MySQL
- Ecological restoration
- Life Cycle Assessment (LCA)
- Molecular biology techniques

COURSES

- **Arctic Resilience through Climate Action, Development, and Education (ARCADE)**
  - Center for Arctic Studies | 2026
- **B1 Icelandic**
  - Háskólasetur Vestfjarða | 2024
- **SSI Open Water Diver**
  - Sub Diving Sozopol | 2024
- **Statistical Thinking for Industrial Problem Solving**
  - JMP Statistical Discovery | 2023

EXPERIENCE

SUMMER PROJECT: GIS AND AUTOMATION

NATURAL SCIENCE INSTITUTE | 2026 | ICELAND

- Development of an automated workflow on invasive species monitoring of Lupinus nootkatensis.
- Analysis of areal imagery using machine learning in Python.
- Funded by the Rannís Icelandic Student Innovation grant.

FOUNDER AND EXECUTIVE DIRECTOR

LUMINARY CINEMA FOUNDATION | 2024 - | BULGARIA

- Coordinating a film festival across 20 locations in rural Bulgaria to improve access to contemporary cinema and culture.
- Built a participatory project benefiting over 15,000 rural residents.
- Grant writer, media and partnership strategy, project development.
- Managing the work of 20 team members located across Bulgaria.

DATA ANALYST

FOOTPRINT DATA FOUNDATION | 2025, 2026 | ICELAND

- Co-production of the 2026-27 editions of the National Ecological Footprint and Biocapacity Accounts (NEFBA).
- Analyzing data, quality assurance and troubleshooting.
- R&D on the addition of wetland component based on MSc thesis.
- Practical skills in data management, MySQL, R and QGIS.

SUMMER PROJECT: WETLAND DATA

UNIVERSITY OF ICELAND | 2025 | ICELAND

- Project analyzing wetland spatial area and carbon sequestration towards inclusion as a new land component in Biocapacity.
- Preliminary research contributing to MSc thesis.
- Funded by the Rannís Icelandic Student Innovation grant.

FUNCTIONAL BIOASSAY TECHNICIAN

ALVOTECH | 2021 - 2024 | ICELAND

- Member of the Analytical Research and Development department.
- Performance of analytic activities for the potency assessment of Alvotech´s therapeutic antibodies. Robotics SME.

EDUCATION

ENVIRONMENT AND NATURAL RESOURCES M.SC.

University of Iceland

2024 - 2026

- Thesis title: Accounting for Wetlands in Biocapacity.
- Specialization: Sustainability Management and Informatics.

MOLECULAR AND APPLIED BIOTECHNOLOGY B.SC.

RWTH Aachen

2017 - 2021

- Received highest possible grade for final thesis project.
